

Holding Tank

Why?

Increase your rental business with specially built holding tanks from Satellite. In addition to adding immediate profits to your business, these strong, impact-resistant polyethylene tanks will provide many years of dependable service. Satellite's holding tanks are designed to stack higher, resist cracking and decrease wear-through from sliding and dragging. Fittings in the 300 gallon tank are molded in, not spin-welded, for greater strength. And all ports are recessed to guard against breakage.

The 300 gallon tank uses 3" Fernco style couplings at any of eight recessed port locations. It has three locations for optional 10" manways. The indented sides of this tank allow it to sit between and over the wheel wells of a standard pickup bed.

Specs 300gal.

Height	16.35" (415.3 mm)
Width	60" (1524 mm)
Length	95" (2413 mm)
Fresh Water	300 gal (1135.62L)
Color	Dark Gray and Natural
Weight	136.3 lbs. (61.8 kg)

The 250 gallon tank uses 3" PVC spigot assemblies which can be installed at any of 10 recessed locations. It has two locations for optional 10" manways. The width of this tank allows it to sit between the wheel wells of a standard pickup. The tank kit comes with two spigot assemblies.

Specs 250gal.
